Matmen Stopped 34-8; Holiday Tourney Here

The Warrior wrestlers received their first dual meet defeat of 1969-70 at Northwest of St. Louis Wednesday.

Northwest won by a 34-8 score to extend its season dual meet record to 7-0 and gain general recognition as the top team in the metropolitan area.

Granite City's season record is 4-1.

Match winners for Granite City were: 115 pounds, Lenny Wilson with a pin after 3:15 minutes; and 123, Al Bridge-man with a 10-2 decision.

Warrior Coach William Schmitt said, "This would be the worst defeat we've had for some time. Perhaps it is some consolation that we've been beaten worse before."

Followed Tourney Victory
 "We were up for the Rite-tourney but looked flat for this one. We knew it was going to be tough, but not this bad."

Warriors who lost were: 98, Bruce Miller 7-0; 107, Lenny Fuchs 6-0; 130, Keith Rogers 3-35 to Northwest's Derek Louis, a Missouri defending champ; 137, Cliff Yeager 6-3; 155, Frank Mellich 5-0; 165, Bruce Evans 6-1; 175, Steve

MHS Cold Spell Aids 65-52 Win by Lancers

Several minutes of inaccurate shooting may have kept the Trojans from defeating Belleville East, rated as a top-ten team in the state, Tuesday at the MHS gym. The final score was 65-52.

The Trojans took the lead in the early minutes but later, during six minutes divided between the first and second quarters, Madison sank but one point.

MHS Coach Larry Graham admitted, "I definitely think we could beat them. We had that one cold spell and it was the whole ball game. In the second half, we outscored them."

For the game, we controlled the rebounds 26 to 29. The Trojan coach added, "John Cannon is going to help us out in the future. He's a good ball handler and passer against the press."

The Lancers led at all quarters 20-11, 32-18 and 44-33.

Scoring were: Tom Noel 15, Doug Griggs 12, John Ervin 10, Joe Dozier (who was cut off

Soccer Warriors Bow 2-0; Then Triumph 5-1

The soccer Warriors on the road were 5-1 victors over Lutheran South of St. Louis county Tuesday after being 2-0 losers to Mercy Monday.

Granite City, now with a 6-3 record, has scored 25 goals and allowed 10. Four of the GC wins were shutouts and in each of the other two victories the enemy was allowed only one goal.

What these statistics don't show, according to Coach Tom Wyrostek, is that the major GCHS weakness is still goal tending. Strong defensive play on the field has kept enemy shots-on-goal to a minimum.

Still in contention for the regular starting spot as goalie are Jeff Boyer, Cecil Barnes, Jeff Wyroham and Glen Williams.

"In the Lutheran South game," Wyrostek observed, "we started out wrong. They had the ball in our territory for the first ten minutes. Then things started clicking."

Take 2-0 Lead
 Warrior Bob Galvan booted the first goal with an assist from Jerry Monahan. Jim Forrester made the score 2-0 by putting in a shot on a rebound.

The Lutherans then scored. Granite City's Dennis Reutebuch scored just before half-

time, taking a pass from Galvan.

In the last half, Warrior John Winfield gave the ball to Monahan, who scored. Reutebuch made the last goal, receiving the ball from Jerry Duncan.

Monday's loss to Mercy was an off day for the Warriors. Wyrostek noted, "We missed eight good opportunities to score and even missed a penalty shot." Mercy made a goal in each half.

GC Regional, With Edwardsville for Sectional Tourney

Regional basketball tournaments in early March at Granite City, Belleville East, Hillsboro and Vandalia will feed into a sectional meet at Edwardsville, the Illinois High School Association announced today.

District tournaments advancing champions to regional level will include O'Fallon, linked to the Belleville East regional, Beecher City, linked to Vandalia, and Livingston, linked to Hillsboro.

Winners of Edwardsville and Olney's East Richland sectionals are paired for first-round state tourney play at Cahokia.

Warrior Bob Galvan booted the first goal with an assist from Jerry Monahan. Jim Forrester made the score 2-0 by putting in a shot on a rebound.

MORE ABOUT Change in Plans

broken down. What can we do to get the line replaced?" he asked.

"We'll have to come up with the difference—about \$100,000," Mayor Partney replied, adding, "And we don't have it."

The mayor explained that the 240 feet specified for repairs could be extended if additional faulty pipes are encountered as the repairs are being made.

Alderman Schuler asked what the repair jobs would do to the federal funds promised to the city. "They'll be deducted from the \$700,000," Mayor Partney answered.

Partney remarked that the "penny-pinching patch job probably will result in more money being spent than the cost of replacing the line."

Another view was expressed by Alderman Robertson, who said the proposal was "interesting, since it did not involve the use of local tax money. I assume they believe it to be functional," he added.

Alderman Whitmer said all surveys showed the entire line should be replaced. "I realize a starving horse takes what it can get, but I'm worried about easements needed for the repair jobs and the cost to the city of replacing fences and shrubs. We shouldn't spend a penny on that. Fences are not supposed to be placed on easements."

Such costs would be the responsibility of engineers and the contractor. "Our engineer worked with the engineers of the Corps of Engineers and gave them the details of our problems on the line. We offered to show them the television film on the conditions inside the line, but I don't know if they even looked at them."

"There's nothing else we can do," the mayor continued. "Bag gars can't be choosers, and we can't come up with any funds to replace the line. All I know is to let the Corps of Engineers proceed."

Alderman Boyd motioned for the city to request a detailed report. "Let them give us some details, so we can study them."

Partney commented, "They could tell us to go jump in the lake."

chased at luncheon. No charge is made for the first carton, which is included in the "Type A" midday meal served at the Venice school.

Commenting on the need to raise the cost of milk to pupils, Fred Durer, acting board president, noted the cafeteria is steadily losing money each month. In October, a deficit of \$583 was recorded, last month's loss, amounted to \$831.

In a previous effort to reduce cafeteria losses, a five-cent increase in the cost of the hot lunch was approved prior to the start of the current school year. The action was taken by the board after Supt. Pier explained that a deficit in cafeteria operations has been growing for several years and amounted to about \$10,000 per year.

Cost imbalance Cited
The school administrator said income from the number of pupils using the cafeteria is far out of balance with the payroll

necessary to operate the cafeteria.

An average of about 270 pupils daily patronizes the cafeteria, where a hot lunch is served at a cost of 35 cents to the pupil. The lunch expense is subsidized by the state.

Some pupils pay 15 cents toward their meal, with the state providing 20 cents, while others pay 25 cents or the full 35 cents, depending upon economic status of the pupil's family.

The five-cent increase added this year is charged to the pupils, since the state payments are fixed maximums, the superintendent explained. Hot lunches previously cost the Venice student a maximum of 30 cents from the time the subsidized program was adopted years ago.

Replace Business Teacher
The board accepted the resignation of Mrs. Sheila Hoelscher, a business education teacher at the Venice-Lincoln Technical Center, who will move to Nashville, Ill., with her husband.

To replace Mrs. Hoelscher at the adult vocational school, ap-

proval was given to hire Miss Mary Elizabeth Esor, a graduate of the Southern Illinois University Southwestern campus. A resident of Edwardsville, the new faculty member has taught one year in the University of Illinois Extension Service program. She was hired on an 11-month-per-year basis, to start Jan. 5, at a monthly salary of \$738.

Mrs. Mary Gargac, Venice kindergarten teacher, was granted a leave starting with completion of the current semester, and the temporary employment status of Mrs. Velva Blakely, an aide in the Venice-Lincoln child care program, was extended indefinitely.

Supt. Pier reported a new night light had been installed by the Illinois Power Com., at the rear of the Venice grade school building as a deterrent to vandalism and looking device is to be replaced on the gate which secures the school grounds from access from adjacent American Legion property.

Crime and Punishment, Topic of Study Series

Lawbreaking activities and ensuring penalties were discussed last evening by veteran policeman and a juvenile probation officer at the third in a series of Family Life Education classes, held in the Garfield Homes recreation center, Venice.

The educational sessions which began Nov. 19, are conducted on alternate Wednesdays for teenagers and adults residing in the Garfield and Gretna housing projects. Guests of the residents also may take part.

The series is sponsored by Madison County Economic Opportunity Commission. Mrs. Mary Rotes, an EOC supervisor and Miss Sue Billman, a Vista Volunteer, are in charge of the program. Attendance at the first three sessions has averaged 45 adults and young people, with 78 persons attending the initial program.

Speakers last night were retired Venice Police Chief Robert Trower, who was appointed attendance officer for the Venice Police last night, and retired Venice Police Officer Robert Trower, who was appointed attendance officer for the Venice Police last night.

and James Parker, a Madison County juvenile probation officer.

Trower explained the difference between offenses classified as misdemeanors and those considered felonies, commenting on preliminary court proceedings, confinement and probation sentences imposed for various crimes.

The result of lawbreaking activities, especially involving youthful offenders who are confined at the new Madison county detention center in Edwardsville, was described by Parker. The probation officer showed slides of the juvenile facility which opened earlier this year.

Previous programs presented in the Family Education series concerned "Drug Abuse" and a panel discussion on "The Generation Gap," Miss Billman said.

Future topics include the dangers of alcoholism; teenage driving habits; and health hazards, such as smoking. Special guest speakers, who are experts in these fields, will present the programs, the organizer noted.

Four Youths Arrested On Auto Theft Charge

Four youths, including two juvenile girls from Roxana, were arrested with a stolen car by state police at Pontiac while they were stealing gasoline, it was reported by police Wednesday morning.

The auto, a 1970 red-and-orange model, was stolen from Serge Doukan, 2200 Douglas street, from a parking place near his home.

To be returned today from the McLean county jail at Bloomington on auto theft charges are Alan Minder, 18, of 2200 Lee avenue; John Windler, 18, of East St. Louis in addition to the two girls, ages 16 and 17.

New Members of Board

The Johns-Manville Products Corp. Venice plant was advised this week of the addition of two new directors of the Johns-Manville Corp. Jacques Beauchemin, president of the Sullivan Mining Corp., Montreal, and Robert L. Mason, dean of the Princeton University School of Architecture and Urban Planning.

Collide in Madison

Cars driven by Kay Frances Halverson, Willmar, Minn., and August J. Trower, 2500 East 24th street, were damaged, with about 4:15 p.m. yesterday in a collision at Fifth street and Madison avenue, Madison Police reported. The car was damaged on the left side and the Trower car on the right side, officers said.

Two Arrested, 3 Hurt in Madison HS Disturbances

Two Madison high school students were arrested and afternoon classes at the school were dismissed yesterday as the result of a series of disturbances apparently stemming from a fight at the high school during the basketball game Tuesday night.

Three persons received treatment at St. Elizabeth Hospital as a result of Tuesday night's disturbance which was quelled after Madison police had been called to supplement auxiliary police units on duty at the school during the game.

Those injured, police reported, were Vicki Dandridge, 18, of 325 Merceda street, Venice; Lavon Mason Jr., 1138 Market street, Venice, and Bill Vest, 20, of 1927 Skeen street, Madison. Officers said Mason suffered a cut on the right side of his scalp and Vest received a cut above the right eye.

Richard L. Brown, principal at the high school, said no one was injured in yesterday's disturbances although there were three or four fights that broke out shortly before noon as students were going to the cafeteria.

Police Aid Called

Two Madison police officers who had been assigned to the school on standby duty as a result of the fight Tuesday night called for help, and police from Madison, Venice and Granite City, sheriff's deputies and state troopers were sent to the school campus area.

Madison police said that while a group of officers was gathered on the school parking lot, a large group of Negroes and whites ran out of a confectionery located across the street from the high school, shouting that a fight was in progress. Police then ordered the youths to return to the campus, and a short time later a missile was thrown.

The missile passed over the heads of the police officers and struck a sign on the confectionery building, officers reported. At this point police said they saw a commotion inside the school and found a fight in progress in the front hall. They said a white boy was on the floor and a Negro boy was on top of him. As police approached, the Negro boy disappeared in the crowd, police said.

Two Arrested
As they were leading the white boy through the crowd, another Negro boy struck him, police said. Officers took the youth in custody and he and the white youth were taken to Madison police headquarters where they were questioned and given court notices to appear later.

Although the disturbances were ended shortly after noon, Brown said the students were upset and he deemed it best to dismiss classes. School buses were called and students were sent home. Several police remained at the campus to prevent loitering after school was dismissed.

Classes resumed this morning without further trouble, according to police who were posted at the school.

Directors Reappointed

Meanwhile Harold Landolt, chairman of the supervisory board of directors, reappointed three members of the 708 board to four-year terms. They are J. J. Saline, townships supervisor; Dr. Edwin F. Buzan and Allen O. Claus.

As the state also helps fund the Alton center, the county appropriation for that center was reduced by \$38,700 from the original \$120,000 figure. A misunderstanding over state funding during finance committee hearings prior to adoption of the county budget was reported.

Trailer Fee Holdover

A new ordinance to license trailer park operators, in which an agreement on fees was reached between the investigation and license committee and the operators, was held over until next month to permit the document to be drawn by the state's attorney's office.

Criticism on the operations, costs and escapes at the new county detention home were made by Paul Riebold of Troy and George Roberts of Alton, leading to heated remarks between William Webb of Granite City, detention home committee chairman, and Roberts.

Webb who criticized Roberts for his persistent criticisms, said the home is not a jail, that locks designed for the outdoor doors by the architect were insufficient to hold the youngsters and that it will take a year to "get the bugs out" of the operation. He said there has not been an escape in more than three weeks.

Also criticized was the detention home budget which is \$27,000 higher than the tax levy. Smith explained that a fund derived from the state would make up the difference.

Reapportionment Looms

Harry Briggs, legislation committee chairman, reported that reapportionment statutes are now on the books, and the board will have to make plans for compliance.

He said statutes call for reapportionment by July 1971 with implementation in April 1972. The state supervisor's association is seeking a one-year extension from the General Assembly but doubts if it will be granted.

The board authorized a call for bids for eight new sheriff's patrol cars, including a station wagon, with a trade-in of three cars, and for five two-way mobile radios for five of the units which will be an addition to the fleet.

A report on tuberculosis operations for November showed 23 clinics were held, 405 examinations were made, 351 x-rays were taken, 179 new patients were treated and operating expenses totaled \$23,682. The county nursing home averaged 59 residents during the month.

The annual report of county Auditor John L. Kravack showed an end-of-the-year fund balance in the general county revenue fund of \$1,222,200, plus balances in most of the other funds.

Parents select the toys for the youngsters themselves, a practice which permits the father and mother to give the present as their own gift to the child, it was explained.

Letters were mailed this week, informing basket applicants the day and time to pick up their Christmas gift basket. Capt. Thomas said also were distributed at the Citadel this year, seven more than last Christmas, he noted.

Names of other applicants have been assigned to organizations and individuals requesting families to whom gift baskets may be delivered, the officer said. A total of 525 applications was received.

Christmas Party For Ruth Class

The Ruth class of Third Baptist Church held its Christmas party Monday night at the church. A buffet style dinner was served to 26 members and 11 guests.

Mrs. Margaret Wilmzig was in charge of decorations, assisted by Mesdames Ivan Graklanoff, Jerry Short, Pearl Vinson, Gladine Ayers and Blanche Blake.

The tables were arranged in a star shape, with a lighted fountain in the center. The fountain was on a red-draped table, and lights in the room were dimmed. Large paper flowers of various shades were placed at the end of each table.

Centerpieces were a silver candelabra with beads running to a velvet bow tree; a white feather tree, a white feather angel; and varying heights of twin candles, surrounded with evergreens and pine cones. Crocheted baskets holding poinsettias were placed at the setting. These favors were made by Mrs. Graklanoff.

Mrs. Julia Carmack offered prayer. Mrs. Juanita Brown told the story of the Virgin Mary with the help of Mrs. Peggy Short, who sang "O Little Town of Bethlehem." Mrs. Earline Richardson played the piano and Mrs. Thelma Peterson completed the story with a reading, "No Room."

Members of the class have sent Christmas packages to their "adopted" girl at the Carmack Children's Home. Mrs. Betty Watkins closed the meeting with prayer.

State Increases Fees for Campers

Camping fees in Illinois state parks will be increased June 1 to provide some of the cost of facilities demanded by today's campers, Director William L. Rutherford of the state Department of Conservation, announced yesterday.

Rutherford said campers will be charged \$1.50 per night for unimproved sites that now cost \$1 and the charge for sites that now have a \$1.50 fee will be \$3 a night.

He said that individual camping sites, including the gravel pad for a camper, the road leading to it, electrical hookups, water lines and other refinements most campers want to-day cost at least \$100 to install, the director explained. A project involving construction of 100 camping units at a park will cost more than \$100,000 when the actual campground and other facilities are completed, he said.

"Recently Gov. Ogilvie released about \$2.5 million to provide modern toilet facilities, electrical hookups, better roads and more campsites at 18 parks," Rutherford said. "This work will be completed about June 15. However, this is just a start. We plan to make more improvements at other parks as funds become available."

Granite City ended the month of November with the lowest mid-year city fund balances in recent history—only \$373,353 in the general levy fund and only \$349,968 in transferable reserve funds that can be used to help pay municipal operating costs, Comptroller Robert W. Stevens reported to the city council Monday night.

Stevens' report shows that during the first seven months of the city's fiscal year which extends from May 1, 1969, to April 30, 1970, the city has spent for all purposes out of its general levy funds a total of \$2,576,662, or an average monthly expenditure of \$410,951. The city still has five months of its current fiscal year remaining with virtually all of its tax income already received.

City Treasurer E. R. "Pat" Rich said recently that the city's remaining tax monies to be collected by the county treasurer will amount to only about \$30,000 to \$40,000. This money will not be received until next March. Meanwhile, the city's only available additional income will come from monthly allocations of state sales taxes and income taxes. There is possibility of some federal grants, but this money could be used only for sewer repair work.

Transfer \$43,000

While city council members accepted Stevens' report without comment, the council approved transfer of \$43,000 from the sales tax fund account to the sewer maintenance account.

but further transfers obviously will be required before the city can meet December disbursements in other accounts.

The comptroller's report shows a deficit of \$828 in the fire department account as of Nov. 30, and a balance of only \$11,337 in the police department account.

The general government account on Nov. 30 had a balance of only \$21,812. The report shows a deficit of \$5001 in the school crossing guards account. In the sewer maintenance fund, the Nov. 30 balance was only \$1248. Stevens reported, with expenditures out of this account totaling \$436,823 during the seven months of the current fiscal year, to the Nov. 30 report date.

Monthly Average Cost

On the basis of the total seven-month expenditures for the fire department, totaling \$225,102, the average monthly cost has been \$32,157, including salaries, supplies and equipment. A total of \$241,812 was spent out of the police fund for the seven-month period, a monthly average of \$34,544.

Thus, for these two departments alone, about \$100,786 would be required for the fire department over the remaining five months period, and about \$170,000 would be required for the police department.

Stevens report shows that expenditures out of the city's five largest departments during the first seven months of the fiscal year amount to: police, \$241,812; fire, \$225,102; streets, \$175,758; sanitation, \$121,465; and general government, \$121,465.

These disbursements total \$874,433, or an average of \$124,926 per month for maintaining and operating these departments exclusive of any other

city operation. This ratio of monthly cost would require the expenditure of \$624,850 for the remaining five months of the fiscal year if expenditures maintained the same level.

Amounts in Reserve

The report showed that as of Nov. 30 the balance of \$249,968 in transferable reserve funds included \$49,795 in the tax commissions fund, \$76,328 in the working cash fund, \$6549 in the parking meters fund, \$79,801 in the sales tax fund, \$36,392 in the state income tax fund and \$500 in the temporary fund.

This total was reduced, however, by the council's action Monday night transferring \$43,000 to the sewer maintenance fund.

According to Stevens' report, these funds which in the past have carried reasonably heavy balances in this phase of the fiscal year had total available revenue of \$966,022 during the year so far, but \$126,017 of the amount was spent directly from the various funds, and transfers to other accounts have totaled \$200,037.

Stevens reported that there are no balances in the transferable general special funds. The total revenue of \$33,496 in these five special accounts has been transferred to other accounts.

There is a \$3.11 deficit in the three accounts of the general government fund which are non-transferable, and a balance of \$155,523 in all of the city motor fuel tax fund accounts, the report showed. Motor fuel tax funds also cannot be transferred to other accounts for general operating expenses.

Savings Bond Interest, Maturity Are Improved

President Nixon has approved legislation raising the interest rate on U. S. savings bonds to 5% if held to maturity.

Further, the nontaxable bonds terms, Clarence S. Sochowski, Illinois director, relates that "the new rate of 5% to maturity applies to all outstanding Series E and H bonds sold on or after June 1, 1969. The higher rate also applies to older bonds."

"Beginning with the first semi-annual interest period starting on or after June 1, 1969, rates on outstanding E and H bonds will be increased to yield 5% when held to maturity or extended maturity."

"These outstanding bonds will also benefit by an improved interim schedule should they be redeemed earlier. Therefore, there would be no advantage in redeeming outstanding bonds to purchase new bonds."

Director Sochowski pointed out that the dollar limit on annual purchases of E Bonds by an individual has been reduced to \$5000 purchase price. Previously, the annual limit was \$2000 face amount.

The annual limit on H Bonds has also been reduced to \$5000— from the previous \$30,000. However, in computing this limit,

bonds registered in the names of co-owners may be applied to the holdings of either or apportioned between them.

The original maturity of the Series E Bond has been shortened from seven years to five years, 10 months. H Bonds will continue to mature in 10 years.

"Freedom Shares"—sold in combination with E Bonds since May 1, 1967—will be removed from sale effective June 30, 1970.

"Savings bonds have always been a good buy," Sochowski said. "Now, with a more competitive interest rate, they are better than ever."

"Their guaranteed return, liquidity, safety and tax advantages make them one of the soundest investments available. And you can buy them automatically and painlessly—through the payroll savings plan where you work or the bond-a-month plan where you bank."

Orville Ganz, the retiring president, was in charge of the

meeting. Christmas baskets are to be distributed Monday morning, Paul Simon, chairman, announced.

Mrs. Whittle reported the following disbursements during November: food, \$205; utilities, \$8; medical, \$38; shoes and clothing, \$126; and miscellaneous, \$8.

In addition 19 orders of clothing and shoes were issued from the store room, valued at \$186. By the kindness of several church groups and civic organizations 10 families were provided with Thanksgiving baskets, she said.

Prather Band to Play Yule Concert Monday

The Prather junior high school band, under the direction of Miss Elsie Mayhugh, will present its tenth annual Christmas concert at 8 p.m. Monday in the school gymnasium. Admission is free and the public is invited.

Ninety-five students will play a variety of both standard and seasonal selections, Miss Mayhugh said today.

Three instrumental groups will be featured, performing several numbers with the entire ensemble and concluding with a selection of Yuletide music.

Following the concert, refreshments will be served by parents of the musicians, with Mrs. Rose Jones in charge.

Enlists in Army

Robert E. Tindall, Jr., a son of Mr. and Mrs. E. Tindall, 2114 (r) Delmar avenue, has enlisted in the U.S. Army and is now in basic training at Fort Leonard Wood, Mo. He is expected home Saturday for a two-week leave before being assigned to duty.

Fire Destroys Frame Residence in Madison

A four-room frame house occupied by Leroy Loving at 1600 Collinsville avenue, Madison, was destroyed about 6 p.m. Tuesday by fire which Madison fire officials said was an apparent case of arson. No loss estimate was given.

Firemen said the blaze had gained considerable headway before they received an alarm shortly before 6 p.m. Fire Chief E. J. Miller said firemen were at the scene about an hour. The blaze completely gutted the structure, Miller said.

Three Cars Damaged

Three cars were damaged in a chain reaction accident at Third street and Madison avenue Monday afternoon, police reported. Officers said a car driven west on Third street by Harold C. Koelker, 201 Hampden street, Venice, struck the rear of an auto driven by Iola M. Lybarger of Troy which, in turn, was pushed into the rear of a car driven by Louis C. Fry of the Granite City Army Depot.

Fire Damages Venice Store

Fire that apparently started along a wall in the basement and spread to the main floor level caused extensive damage to the building interior and merchandise at the New-Way Market, 1061 Douglas street, Venice, late Tuesday night and early yesterday.

Venice firemen fought the blaze for several hours before bringing it under control. Firemen said they received the alarm at 11:15 p.m. Tuesday, and were at the scene until 3:30 a.m. yesterday.

Firemen reported the possibility that the fire may have been set, but Venice police said a thorough check of the building failed to indicate any signs of forced entry, and that the blaze apparently originated inside the building in the basement.

No estimate of the damage was made, but police and firemen said considerable damage was done to merchandise.

The New-Way Grocery building which is owned by Manuel Lander of University City, Mo., has been the target of several firebombing attempts in the past. During a series of racial disorders in Venice last summer, an attempt was made to burn the store, but only a shed at the rear of the building was destroyed.

In July, two burglars were trapped inside the store by police who said they later found a pile of crumpled paper and other indications that a fire had been set.

City Seeks Solution to Home Damage along Fehling Road

Traffic in the 3200 block of Fehling road is to be restricted to two-way on the east side of the street to halt damage to homes across from the high school football field.

A delegation of homeowners was in the audience for Monday night's Granite City council session, and the spokesman, Leo Manoganian, 3233 Fehling road, said assistance was being sought to halt damage to plaster walls and ceilings and foundations, caused by speeding, heavy traffic on the rough roadway.

He pointed out there had been no damage prior to completion of the roadway following an excavation for sewer repairs last summer. He blamed school buses and heavy trucks.

"There are tremendous vibrations, and we would like to know what we can expect from the city to keep our homes from being damaged more severely," he asked the council.

Street Supt. Warfield said not much could be done to improve the street surface before next spring.

It takes a year for such a deep excavation to compact and settle properly. The street is under contract, and the city is planning to repave before spring. Patches hold for only a few days.

25-Minute Discussion
In the 25-minute discussion, demands were made by aldermen for strict enforcement of weight limit and speed laws. Alderman Robertson remarked that the responsibility for enforcement belongs to the executive department. "That's you, Mr. Mayor," he told Mayor Partney.

Partney replied the council has failed to provide the police department with scales to enforce the five-ton load limit that pertains to five tons per axle, and that the police have operated radar units on the thoroughfare repeatedly.

Robertson suggested the city confer with A. H. Seibold, Excavating and Trucking Co., 23rd and Adams streets, for use of its scales.

It was suggested by Alderman Partney that the police chief meet with Bi-State Transit System and school officials to route the school buses off Fehling road, at least temporarily until the problem can be solved.

121 Speeding Arrests
Mayor Partney called upon the chief for a report on the number of radar speeding arrests along Fehling road, and Chief Veizer said there have been 121 since Sept. 1, including bus and truck drivers as well as motorists.

Alderman Whitmer commented that he favored weight limit enforcement only on streets carrying through traffic, so as not to disrupt local trucking activities.

City Engineer Kenneth Kleiberger was called upon and explained patching at this time of year would hold only for a day or two, and that the rough road caused home damage with excessive speed and axle weights of vehicles. "You could lower the speed limit temporarily," he suggested.

Other aldermen remarked that the radar squad is needed in other areas, too, and could not be assigned 24 hours a day along Fehling road.

Johnson Road, Too
Alderman Boker said he has received complaints of similar damage to homes along the unimproved section of Johnson road. He asked Street Supt. Warfield to continue with a program of patching the shoulders of the road, and added, "It looks as though we'll have to do lots of rerouting of traffic to Johnson road."

Other aldermen joined the discussion. Poulos remarked, "It would be almost impossible to enforce the weight limits on all restricted streets, and that's what we'd have to do."

Alderman Green replied, "We do something tonight. If it's weight limit enforcement, that's what we should do."

Mrs. Manoganian, who was with her husband, said five vehicles observe the speed limit of "20 miles when children are present."

She was answered by Nomm, who remarked, "This enforcement can't be done. If we enforced the 30 mph limit, we'd have cars backed up to Mitchell in the mornings. The only way is to barricade a portion of the street and narrow it, to avoid the rough surface where the sewer excavation was filled."

Another Suggestion
Alderman Dawes asked, "Can we close the street to trucks and buses?"

He was answered by City Atty. Scroggins, who said it could be done on an emergency basis. Poulos added that perhaps school buses could be routed on Madison avenue rather than Fehling road.

Robertson said, "The council wants the ordinances enforced. We have the ordinances, but they're not enforced."

Boker replied, "You have to remember. The police department has to be in seven wards 24 hours a day. We're really ripping the police department, and we know the radar unit can't be placed on Fehling road 24 hours a day."

Green reminded him, "We do have a 20 mph ordinance that's not being enforced. It would then that the mayor called upon the police chief to report on the number of radar arrests." Green answered, "The buses are piling too fast. They're tearing the houses apart."

The debate neared an end as

Sheriff Battles

Gov. Ogilvie to provide a special election for a levee board member to fill the vacancy.

Wants Legal Ruling

She said she will seek a legal opinion from State's Atty. R. W. Griffith, who is now out of the area and not expected to return until later this week.

Miss Hotz had said earlier that she has no authority to set up the election of a levee board member without a writ of election issued by the governor. Nearly three years of the levee board term remains and the governor can appoint a member to fill the vacancy only in the event that there is less than a year of the term remaining. Democratic sources said. He can call a special election at any time.

Recently Democratic leaders theorized that Ogilvie would wait until 1971 before calling a special election to fill the vacancy, then appoint a member to the board of trustees. This appointment most certainly would go to a Republican. The levee board has been Democratic for many years.

Late last week reports were circulated that Zupan was preparing to file petitions of candidacy under a state statute reportedly cited by Leon Scroggins, Granite City attorney, which is said to provide for an election if candidates file petitions of candidacy, regardless

of whether or not the governor calls the election.

Sought Post in 1968

Political observers report that Republican workers head of the move and circulated petitions for Werner, who was an unsuccessful candidate for one of the levee board posts filed in the November 1968 election.

According to Democratic

sources, leaders of the Venice Madison Democratic organizations headed by Dr. John Lee, mayor of Venice, and Madison Mayor Stephen Maeras, learned of the action and petitions for Greathouse were circulated Monday in time for filing late Monday afternoon.

The levee board vacancy resulted from the death earlier

this year of Joseph Grant of Granite City. Grant and William "Mike" Ebersold of Venice, were re-elected to new four-year terms as the Madison county members of the levee board in November 1968.

Grant's death left Ebersold as the only remaining member representing Madison county which is permitted two mem-

bers on the board, while St. Clair county has three. The division is based on the assessed valuation of the two separate sections of the bi-county district.

Committee Unopposed

Filing at the county clerk's office for representative committee ended Monday with only three candidates on each ballot, which is tantamount to

election. Three committeemen of the 53rd Representative District are elected in the primary, rather than nominated, and since there are no opposing candidates those who filed will be elected.

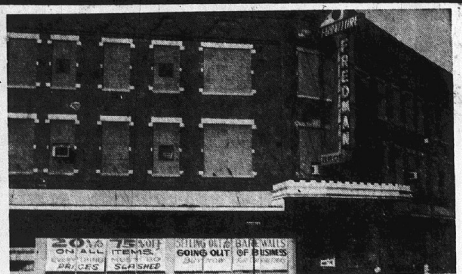

Filing on the Democrat ballot were Christ Costoff of Madison, Ralph Elliott of Granite City and Joseph Bardill of Highland.

Republican candidates are Mrs. Doreen Young of Alton, Samuel Shackelford of Granite City and William J. Palecek of Collinsville.

Three members of the County Board of School Trustees also will be elected without opposition in the primary. Candidates filing for these posts are Joseph N. Berry of Alton, Gordon Bur-

roughs of Edwardsville and Homer A. Huber of Granite City. County school trustees also are elected in the primary ballot, but in a separate non-partisan election. For this reason, voters receive a separate ballot for voting for these candidates.

FREDMAN BROS. CLOSE DOORS AFTER 35 YEARS!

Fredman Bros. are closing their doors after 35 years in Granite City. That means we must sell off the largest stock of furniture, appliances, bedding and carpeting in the Quad-City Area and we must do it fast. Our floors are jammed with new merchandise ordered for our regular Christmas business. Now we must sacrifice it at a fraction of the regular price to insure its fast disposal. Everything must be sold to the bare walls; some at cost, some below cost! But hurry, while the selection is still complete; it's selling fast at these prices.

Plan Commission To Study Petition For Nursing Home

Referred to the City Plan Commission by the Granite City council Monday night was a petition for annexation and zoning change for a tract in West Granite where a 20-bed nursing home is planned.

Alderman Nann, who stalled action on the petition of Morris Realty Co. at the Nov. 24 council session, placed a stipulation on the petition calling for adequate drainage to be provided for the tract so surface water will not flow onto Emzee and Morgan streets. The city has 10 and 15-inch sewers serving the area for combination sanitary and storm water.

Despite the large-size lines in the area, the city has experienced flooding along Morgan and Emzee streets.

Council members were notified of a meeting set for last night at the Granite City school board office for discussion of sanitary sewer facilities for new school to be built outside the city limits along the Morgan and the Schaefer tract and at Route 203 and Maryville road near Bowland.

New Schools Need Sewers

In a letter inviting members of the Sanitary and Sewer committees, along with the mayor, other aldermen and the city engineer and city attorney to the meeting, B. J. Davis, school superintendent, said the primary deterrent to the construction is the availability of sanitary sewers.

Nann commented that he did not favor construction of new schools outside the city limits when there were other buildings, such as Emerson and Washington that needed replacement. (The school district selected the sites based on population needs).

Two schools built in recent years outside the city limits have been annexed — Grigsby junior high and Maryville grade school. Both annexations are being contested in court on complaints filed by Nameoki townships.

Urban Renewal Report

Later in the session, a report was received from Alderman Morlen on his attendance at the Urban Renewal Workshop in Springfield on Dec. 4 during which representatives of the federal Housing and Urban Development agency discussed annexations.

Morlen said that Herman Dirks, a field man for HUD, stressed that a most pressing problem for cities is annexation, "and that one way to deal with this is to work closely with neighboring townships in the city's natural growth path."

"He brought out," Morlen continued, "that such problems as planning, zoning, sewers and natural drainage need to be solved and suggested that a first step would be to name a committee from the city council to meet with representatives of neighboring townships to form an overall combined committee."

The speaker, Alderman Morlen said, also emphasized the importance of reviving downtown business districts, and suggested a committee of aldermen be appointed to work with the Downtown Merchants Association.

"After these committees are in operation, the city can request the Urban Renewal Association for guidance," Morlen concluded.

Primary Election Fights Develop At District Level

Four candidates in the 1970 primary race for nomination as senator of the 33rd District on the Democratic ticket are expected to have a five-way contest for one Republican nomination as state representative of the 35th District developed as highlights of the local area election races Monday evening as the primary filing period ended at the secretary of state's office in Springfield.

All candidates for state and district offices are required to file nominating petitions with the secretary of state during a filing period synonymous to that conducted at the county level. State and district candidates, like those in the county filings, have until Saturday noon to file.

Latest filing in the Democratic Senatorial bidding in the 33rd Senatorial District, which encompasses the four Quad-City townships and six other Madison county townships, was Sam Drenovac, Rural Route One, Chouteau township, who filed petitions on the last filing day. Other candidates who filed earlier are State Rep. Sam B. Vadalabene of Edwardsville, Harry Briggs, supervisor, Namecki township, and Dick H. Mudge, Edwardsville lawyer.

Incumbent State Sen. Merrill Otwell of Edwardsville is unopposed as the Republican candidate seeking re-election in the 33rd District.

Five for Representative

Five candidates seeking the one 5th representative district nomination include Charles "Bill" Burns of Granite City, Walter J. Emde of Granite City, George J. Lebek of Collinsville, Robert J. Walters of Alton, and Charles G. Thomas of Bethalto. The 5th Representative District includes the Quad-City area and three other townships.

Incumbent Democratic Representative Leland J. Kennedy of Alton and Horace Calvo of Granite City filed for re-election, with opposition from David Partney of Granite City, son of Mayor Donald Partney.

Opposition to Walter T. "Buck" Simmons of Venice is his candidacy for re-election as clerk of the Fifth district Appellate Court also developed in late filings. His opponent in the

Santa Claus to Visit Pontoon Beach Tuesday

For the seventh consecutive year, Mayor Thomas Stalcoff of Pontoon Beach—in his traditional role of Santa Claus—will make the rounds of the village area from 5:30 to 10 p.m. Tuesday, it was learned today.

A minimum of 1100 pounds of candy will be distributed by the local mayor to the village children as he makes a 5½-hour tour along Pontoon Beach streets. Assisting "Santa" will be "helper-elves," Rosewell Bennett Jr. and Louis Whitsell. Starting in the Gaslight Walk area, Mayor Stalcoff will stop at homes where porch lights are illuminated, or youngsters are observed, he said. The trip will conclude in Lakeview Estates subdivision.

Local business establishments provided funds to furnish the candy treats and a truck will be used to carry the 1100-pound load, Stalcoff said.

In a related Yuletide event, Pontoon Beach families are invited to register at a Pontoon Beach service station for an eight-foot-long Christmas stocking, filled with toys and games. Contents of the stocking, valued at over \$100, were donated to the village by the station management, Stalcoff said.

Boy Stabbed in Dispute Over Bike; Two Held

A dispute over ownership of a bicycle resulted in 15-year-old boy being hospitalized with a stab wound and cut to his neck about 1:50 p.m. Tuesday.

In St. Elizabeth Hospital is Alan McGiffin, son of Mrs. John Clift, 2023 Washington avenue, whose condition is reported to be fair.

Police placed aggravated battery charges against David Ely, 17, of 2822 Denver street, and Mrs. Linda Schoffa, 19, who gave addresses in the 2000 block of Lee avenue and the 2200 block of State street. A youth, 14, also was involved, and was turned over to juvenile authorities.

The incident occurred at 21st street and Washington avenue, where there was an argument over the bicycle. The wounded youth was able to reach his home, and his mother took him to St. Elizabeth Hospital.

Police said they were told Mrs. Schoffa handed a knife with a breach blade to Ely. The knife was confiscated.

Faces License Charge

Levern Brown, 17, of 1010 Douglas street, St. Louis, was arrested by Venice police at Third and Bissell streets at 8:30 p.m. Tuesday on a charge of driving an auto bearing fictitious state license plates.

Democratic primary is Robert V. Walsh of Mount Vernon. David F. Mallett of Troy is unopposed as the Republican candidate for the clerk's post, which is to fill a vacancy for four remaining years of a six-year term.

Incumbent Cong. Melvin Price (D-East St. Louis) is unopposed in the Democratic primary for re-nomination. Scott R. Randolph of East St. Louis is the Republican candidate, also unopposed.

Delinquent Tax Sale Conducted by County

The annual Madison county delinquent tax sale which opened Tuesday morning at the county courthouse in Edwardsville came to a quick ending Wednesday morning with disposition of all of the thousands of parcels available.

The number of parcels and the amount involved are to be counted later in the office of the county clerk, according to John Maeras, county treasurer. He said the county took temporary claim to properties not purchased by professional buyers, who were on hand for bidding from Chicago, Peoria and Alton.

County officials hoped to collect an estimated \$340,000 in delinquent property taxes through the sale. Last year, professional buyers paid the county \$229,220, while the county agent claimed property taxed at \$57,694.

Delinquent taxpayers will have two years to pay the back taxes, plus interest, otherwise the property is deemed to be the buyer. Property claimed by the county in which remains tax delinquent after two years is sold at auction.

Family Life Meetings To Resume January 5

The Family Life discussion group which meets at 4 p.m. each Monday at the Kirkpatrick Homes recreation center will discontinue regular meetings until Monday, Jan. 5, it was announced today.

The program series dealing with problems affecting the family such as parental control and marital difficulties is sponsored by the Kirkpatrick Homes Improvement Association.

HOSPITALIZED CHILDREN pose with Santa and Corky the Clown, who visited the pediatrics department Tuesday. The youngsters are Sharon Gray (seated), Carla Hutchison, Cindy Hamilton, Charles Pulley and Kenneth Main.

Santa, Corky the Clown Visit Children in Hospital

Santa Claus and Corky the Clown, television personality and ambassador for TB Christmas Seals, visited 44 children in the pediatrics department of St. Elizabeth Hospital Tuesday morning.

Corky performed entertainment acts and visited with each child. He also gave one of the young patients a Christmas stocking filled with "goodies."

The visiting clown was greeted by Assistant Hospital Administrator Ted Ellerman, Gene Abernathy, Madison County's Christmas Seal campaign chairman with his wife and infant daughter, and Mrs. Billye Barth, executive director of the Madison County Tuberculosis Association.

On behalf of hundreds of children from both sides of the river, the popular clown is distributing "Get Well" greeting cards made by them using Christmas Seals.

Although the three-day hospital tour is coordinated by the TB Society of St. Louis together with TB Associations in Madison and St. Clair counties, the true sponsors of Corky's tour are the children themselves.

Sinking Manhole Repairs Ok'd By GC Council

Emergency repairs to a sinking manhole in the 3200 block of Fehling road were authorized Monday night by Granite City council members on a cost-plus basis.

The manhole is between the sidewalk and curb and began sinking last week. The 15-inch sanitary sewer lines on either side of the manhole had been replaced and repaired earlier this year, but the pre-cast manhole was undamaged and was not replaced.

City Engineer Kenneth Kleberger explained that the sinking apparently resulted because the ground around the manhole was disturbed. "It had sunk 11 inches and was still going down on Monday," the engineer said.

Award of the repair job was made to A. H. Seebold Co. who has been the contractor for the city's sewer breaks.

A pump and other equipment were moved in earlier to maintain sewage service while the repairs to the manhole are under way.

\$1400 Auto Fire

A short circuit in the wiring caused \$1400 damage to a 1968 auto owned by A. C. Sioever, 2720 State street, while it was at his home at 4:25 p.m. Monday, the fire department reported.

Mrs. Barth explained, "Other hospitals visited this week included Christian Welfare and St. Mary's Hospitals in East St. Louis and St. Elizabeth's Hospital in Belleville."

Mrs. Florence Martin, 84, Dies; Ill 2 Years

Mrs. Florence B. Martin, 84, of 2827 Buxton avenue, died about 12:30 p.m. Tuesday at St. Elizabeth Hospital following a two-year illness. She had been a patient at the hospital since Thanksgiving.

A local resident the past 50 years, Mrs. Martin was born and reared in Shiloh, Tenn. She was a member of Briarcliff Petecostal Church. Her husband, George William Martin, died in 1940.

Funeral arrangements are given in the obituary column.

Five County Zoning Petitions Approved

Two zoning board of appeals cases were held over and five others were approved Wednesday morning by the Madison county board of supervisors.

Hold over, though previously recommended for approval by the zoning board, were petitions of Evelyn Lou to rezone a tract from R-3 one-family residence district to B-3 highway business district at St. Thomas and West Chain of Rocks roads, and the petition of Dovie M. Nursing Grows Fastest In Credit Hour Count

The department of nursing at the Southern Illinois University-Southwestern campus, has been the fastest growing undergraduate academic unit during the last four years, a study of credit hour production at the campus show.

Credit hour production of nursing students grew 78.26% between the academic years 1965 and 1968. At the graduate level the social sciences division increased its credit hour production by 158.4% to lead all units. Figures for the current year will not be available until the end of the 1970 spring quarter.

Credit hour production for the entire campus rose 57.9%. The gain at the undergraduate level, 57.8%, and at the graduate level, 59.04%. During the same period, fall quarter enrollment—a head count—rose 44%.

One credit hour is produced for each hour of course work for which a student registers. Credit hour production is considered by many educators to be a more valid indication of growth than an enrollment head count.

Other units, in order of their graduate level growth are: business, 147.1%; fine arts, 87%; science and technology, 66.5%; humanities, 61.5%; education, 40.6%.

At the undergraduate level, education rose 72.4%; social science, 71.2%; fine arts, 67.7%; science and technology, 62.5%; humanities, 45.2%; and business, 32.6%.

If the competition had Impala's high resale value maybe they'd be No.1. Maybe.

The makers of Impala generously offer these tips to competitors to help improve their resale value. They could try adding our side guard door beam structure, heavy steel rails inside the doors. They could do something about the rocker panel problem, as we have done with flush-and-dry rocker panels, instead of being content to let rust accumulate. They could put inner fenders in every model, just like Impala. Who knows? Come resale time their outer fenders might look almost as good as Impala's. They could hush up the sounds of old age with something like Impala's long life exhaust system, aluminumized at critical points for greater durability.

Impala's cargo-guard luggage compartment is a good bet, too. A steel bulkhead separates luggage from passenger compartment. Beats paper or plywood all hollow.

We suggest an acrylic lacquer finish, so their cars will keep their shine longer. But if competition doesn't take these tips, you certainly should.

Buy an Impala. It's such a rewarding car to get rid of. Putting you first, keeps us first.

New Cities, Improved Rural Job Openings in 1970s Could Reverse Big City Migration, Overcrowding

By U. S. SENATOR CHARLES H. PERCY

As the problems of urban life mount, increased attention is being paid to a program that former President Dwight Eisenhower advanced nearly a decade ago.

The late President's idea was to ease pressure on congested urban areas and to create a better climate for industry by building new communities in the countryside.

Last summer, during the congressional recess, I and the children were able to visit a few such "new towns" in Scandinavia.

One community that we toured was nothing more than a big field six years ago. Now, it serves as a home for 20,000 families; by 1975, it is expected to house 40,000 persons in 13,000 units.

Recently, Secretary of Agriculture Clifford Hardin came to Illinois to raise the issue, in a talk before the National Association of Land-Grant Colleges.

In his speech, the Secretary recognized that the number of farms will continue to shrink in our nation as the technological change leads to more mechanization in the growing and processing of food.

The Secretary said: "It is not enough that we think in terms of improving conditions and opportunities for the people living in rural America and thereby stem the flow of people to the cities. We must do much more."

"We must make it a matter of urgent national policy that we create in and around the smaller cities and towns sufficiently good employment opportunities and living environments that large numbers of families will choose to rear their children there."

The fact is that the nation's population is expected to grow by 100 million in the next 30 years — that is, by the year 2000.

By contrast, the total population has risen by 54 million in the last 20 years, since 1950. Virtually all of this growth has taken place in urban areas.

If these 100 million new-born Americans similarly crowd into the cities and surrounding suburbs, the nation will face critical environmental problems.

That is why it is urgent that we find means to redistribute more of our people

to "new towns" in the country, where there is more room, freedom from noise and pollution, a reduced threat of crime and a relief from the numerous strains of overcrowding.

Alternately, we must find ways to improve our existing towns in rural and downstate communities and hold our population there, particularly our young people.

It does not strengthen our state, for instance, to educate our children at Southern Illinois University and then have them leave their homes to seek employment in St. Louis, Detroit or Los Angeles.

Last month, President Nixon established a Rural Affairs Council with both Cabinet and non-Cabinet members and urged the new group to examine the potential of the "new towns" program. He said, "It would be closely coordinated with state and local governments."

Secretary Hardin has noted, the key decision on the development of small-town living would provide for the people living within the communities involved.

The President's revenue-sharing proposals, which are still pending in Congress, would go far to give these communities financial base to plan their own futures.

The National Committee on Urban Growth Policy — a non-government group — recommends federal aid in the creation of 100 "new towns" of 100,000 people each and 10 "new cities" of a million each.

Even such a visionary effort would provide for merely 20% of the additional population we can expect before the year 2000.

Community development can also proceed through the expansion of existing towns and cities, thereby gaining the advantages of existing institutions and services, existing history, culture, character and community.

In any event, the new decade is likely to mark the beginning of a new era for Illinois and for the nation — an era when the flow from the countryside is reversed and more people move to and choose to stay in small towns and villages in order to seek and to find a better life for themselves and their children.

'Y' Recruiting Youths To Join Swimming Team

A recruiting campaign to obtain additional members for its swimming team, the Tidal Waves, is being conducted by the YMCA according to Forest Cockrell, swimming coach.

Membership will give youngsters an opportunity to swim, learn water safety and sportsmanship and a tryout for the team.

The team, which competes against other YMCA's, contains a roster of about 40, but it can use twice that number.

Swimming meets include the various events for five different age groups for boys and five different age groups for girls. Youths interested may contact Cockrell or the 'Y' youth department.

Arlo Guthrie to be Featured on Channel 9

Arlo Guthrie, son of the late Woody Guthrie, both well-known folksingers, will perform at 9:30 p.m. Tuesday Dec. 30, on Kete Channel 9 in a program entitled "Arlo Guthrie at the Mississippi River Festival." Channel 9's production crew helped tape this concert at the Festival held last summer at the SIU-SW campus.

A folksinger known for his "talking blues" and his central role in "Alice's Restaurant," he will perform many of his own songs. "The Pickle Song" will be first in the concert, during which the young singer will alternately accompany himself on a six and twelve-string guitar as well as on a piano.

Carbondale Seeks Annexation of SIU Properties

Trustees of Southern Illinois University have taken under advisement a request that the bulk of the Carbondale campus be annexed to the city of Carbondale.

The Carbondale campus is located at the southern edge of the city. A portion of the campus, including the Thompson Point residence halls, the fraternity and sorority areas and the site of the Evergreen Terrace apartment complex for married students, was annexed to the city in 1965.

The new request would add all University land north of Reservoir-Pleasant Hill road and west of Wall street. This would include the University Center, the Arena, University Park and Brush Towers resident areas, University trailer courts and the Southern Hills married students apartments, as well as numerous academic buildings.

University officials estimate about 4500 students, wives and children live in the residence areas involved. The city asked action be taken prior to Jan. 1 so the additional population could be credited to the city on the 1970 census.

Plan New Buildings The trustees also voted to ask the Illinois Board of Higher Education to approve an \$8.9 million student recreation complex on the Carbondale campus—a Recreation Facilities building group that would be financed by an SIU revenue bond issue and from a Student Welfare and

Youth Focus

Recreation Facilities fund. Students pay \$15 quarterly into the fund.

The project features a large cluster of connected building units surrounded by playing fields. It would be located north of the existing Brush Towers student residence project.

In other action during its board meeting, trustees in-

structed the University administration to take all necessary steps to protect University property and programs from damage or disruption by the proposed "May Fest Rock Festival."

The rock festival has been announced for early May on farm acreage about six miles southeast of Carbondale. Promoters say they expect more

than 100,000 visitors to the affair. The site is adjacent to SIU property at Little Grass Lake. Residents of the area have organized to protest staging the affair, asserting it will constitute a threat to public health and safety.

WANT TO SELL YOUR HOUSE IN A HURRY? —Reprint from Readers Digest

(CONTINUE FROM LAST WEEK)

3. SHOW TO BEST ADVANTAGE. Take this case from the files of the Mandelhall-Moore Realtors, of High Falls, N.C. The house was in excellent condition, "harder Ed Mandelhall recalls, "but it needed showmanship, which the owner supplied. When she prepared the house for inspection, she left just enough light in each room, there was a bit of greenery on the hall tables, there were flowers in the living room, and the bill was playing softly, a beautiful fire in the den brightened a chilly day.

"The result was a quick sale," says Mandelhall, "thanks to the wife's imagination. I think she added probably \$2000 to the price of the house."

Unable to sell a property because of its exterior appearance, Thornton S. Kivett, Realtor of Yucalpa, Calif., went to work to change it. According to Kivett, "We had a house in a low, white fence to separate the house from a vacant lot in front of it, set out a dozen trees and shrubs, and raised the price from \$18,500 to \$22,500. Within two weeks, we sold the property, reaping a \$4000 return on our \$2000 investment for fence and shrubs."

"There are a lot of things you can do to help sell your house," says Realtor Kivett. "Paint it, if possible, fix the leaking faucet, crackling floors and loose knobs. Mow the lawn, give your

place that well-cared-for look. Remember your kitchen is the heart of the home, so keep it spotless. No dirty dishes! Women are also sensitive about bathrooms: keep them clean and orderly. Clean out the clutter in the basement and attic. And if you have pets, clear them out, too."

4. DON'T LET THE REALTOR SELL. One of the best ways to move your house in a hurry is to keep out of it while it's being shown! You should first tell your Realtor everything—about the low heating bills, and about the localities—and then let him do the selling. If you must be around when the house is being shown, greet the prospect graciously, take the children and the pets and retire. Turn off the lights.

5. ASK FOR THE BEST OFFER. Once you put your house on the market, you have to make up your mind to move when the "right" offer comes. Your asking price should come pretty close to your selling price, and you should be prepared to negotiate the best offer when it comes. And if you turn it down, you may never get another as good. If you have taken into consideration the length of time you have lived in the house, and if you have allowed for depreciation or appreciation, you should give him the best "low" for his money.

THESE TIPS should help speed your sale. In selling a house, remember to put yourself in the buyer's shoes. He is looking for charm, comfort, convenience and location, and he wants a bargain. You should give him the best "low" for his money.

Under Council Consideration

Retired GC Sr. Citizens Seek Free Auto Stickers

Senior Citizens, represented by a delegation of about 10 persons, presented petitions to the Granite City council Monday night to provide city auto license stickers without charge to retired persons 65 years of age and over.

The petitions were signed by 224 persons, City Clerk Homer "Cal" Pendleton reported to the council.
Aldermen called for a legal opinion from City Atty. Leon Scroggins and for the clerk to determine how many persons would be involved and the cost to the city. Presently, the city sells about 14,000 windshield stickers a year at \$3 each, for a total income of \$42,000.

The request first was referred to the Ordinance committee by Alderman Robertson, but Permyly, who heads that committee, amended the motion for the matter to be placed in the hands of the Finance committee.

The Finance committee chairman, Alderman Moerlein, said there was a question of legality and called first for a legal opinion. Boyd, a member of the Finance committee, asked for a figure on what such a program would cost the city.

Aldermen who commented on the request indicated they favored it, as did the mayor, who said he would seek a legal opinion for this request.

Post 51 Delivers Yule Gifts to Youth Ranch

New clothing, toys and school supplies for 26 boys at the Peaceful Valley Youth Ranch near Carlinville were delivered this week by members of Amvets Post 51 and Auxiliary. It was reported today by Steve Konkovich, post public relations officer.

Holiday wrapped gift packages were taken to the youth ranch by a caravan of Amvets families. The local group visited the youths, who range in age from seven to 16 years, before returning home.

This is the first Christmas the local Amvets Post has provided a large assortment of Christmas gifts for the boys, Konkovich said. Many youngsters at Peaceful Valley are from broken homes, others are orphans and several boys have been deserted by their parents, he explained.

The facility is operated by the widow of the late Roy Blackburn of Madison. The latter died of injuries suffered in

a fire at the youth ranch about two years ago. The Illinois Amvets Association, especially member post in downstate Illinois, help to support the home which is located about 400 acres and includes four separate buildings.

As part of Post 51's seasonal activities, Amvets members last month mailed several gift packages to servicemen in Vietnam, Konkovich said. The parcels were prepared by Auxiliary members.

This Saturday at 2 p.m., children of Post 51 members will be entertained at a Christmas party in the Post Home, 5100 Lakeview drive. A visit from Santa Claus and distribution of gifts will highlight the occasion. Later Saturday, Post 51 Auxiliary will host a Yule party for husbands, starting with a buffet supper at 7 p.m. A gift exchange is planned and a social evening will follow. Mrs. Marge Smith, auxiliary president announced.

City Oks Zone Change, Appeal

Granite City council members voted approval of recommendations submitted Monday night by the Zoning Board of Appeals and the City Plan Commission.

An appeal by Jack Hayes, 3140 Wayne avenue, to place a garage one foot from his property line instead of seven feet was rejected because of an objection by a neighbor, whose complaint was that a garage on the Hayes' property already is located too close to the property.

Granted was the appeal of Harvey Jackson, 2205 Glen drive, for location of a carport 4.5 feet from the property line instead of seven feet. There were no objections.

The council approved the City Plan Commission recommendation for property at 2400 Delmar avenue to be rezoned R-5 from the present R-3 for construction of a six-unit apartment. An amendment to the zoning ordinance is to be prepared. The petition for zoning change was presented by Walter Aerne.

Alfredman Parmley, chairman of the council's Planning and Zoning committee, said Aerne has withdrawn a petition for a zoning change for a tract at Mercer drive where duplex dwellings were planned. The petition for a change from R-1 to R-5 for multiple family dwellings was denied by the Plan Commission because duplexes would detract from the single-family homes in the area.

'The Short of Peanuts' To Be Aired on Ketc

"Good Grief, Charlie Brown," has become a phrase as well known as "Our Father," and, interestingly enough, Robert Short, author of "The Gospel According to Peanuts," a book about Charles Schulz's "Peanuts" characters, says the two are directly related.

Short will discuss his book, which points out religious symbolism in the comic strip and relationships between characters such as Peanuts and the average 20th-century man, Lucy and Lucifer, Snoopy and the Christ-symbol, and the Red Baron and Evil, on Ketc's "Continuum" series at 9 p.m., Tuesday, Dec. 23, on Channel 9 in a program entitled "The Short of Peanuts."

The series, which features host Harry Cargas interviewing outstanding spokesmen on current social issues, is being made available for distribution to 21 midwestern stations through the Central Educational Network (CEN).

Viewers interested in more information on the series or other Ketc programming may write to: Ketc, 6996 Millbrook Boulevard, St. Louis, Mo., 63130.

Roca Members to Sing Carols in City on Dec. 23

The Roca Young Men's Club is planning a series of Christmas festivities to be held Dec. 23 under the chairmanship of Mike DeRuntz.

The youths will sing carols in downtown Granite City during the early evening, with member Harry Diak dressing as Santa Claus to distribute gifts to passersby.

The club then is to meet at the home of Brad Cross, 1623 Pontoon road, where members will form various groups and sing carols in residential neighborhoods at 8 p.m. An informal party is to be held after the caroling at the Cross residence, with hot chocolate and other refreshments to be served.

The Roca Raiders' park league basketball team suffered its first defeat of the season at the hands of the Young Life Lakers 62 to 58. The Raiders

maintained strong competition throughout the game and were ahead at times, but the Lakers came back.

High point scorers for the Raiders were Rick Cardwell, 13, Dave Evans, 22, and Mark Rigby, 12. Robert Allen, coach, and Mike Loftus, sports chairman, announced the next game was to be against Jacobson's.

Ralph Thompson, vice-president, announced the final contest for the closing current term of Score in which members were assigned partners to interview each of their parents. Bonus points for members also were announced by Thompson, who appointed the new chairman for each phase of the upcoming term.

They are Mark Rigby, service to home; Tom Eaton, curriculum; obligation, to be announced by the board; Rick Townsend, respect; and Rick

Cardwell, excellence in example.

The Roca agenda includes rehearsals for members and sweethearts for the Student Council talent show in January under the supervision of Rick Diak.

Numbers to be used are "Officer Krupke," with Rick Cardwell, Brad Cross, Harry Diak, Ken Townsend, Earl Anderson, Rich Diak and Mark Rigby; "The Baseball Game," with Mike Loftus portraying Charlie Brown, Pam Peters as Lucy and Ken Townsend and Deb Portell as other members of the team; and "Stranger Routine," featuring Harry Diak, Brad Cross and Rigby. Helping direct rehearsals are Miss Diane Nocheff and music director Ron Matson.

The next meeting is to be held at the home of Greg Jones. A Roca winter sweetheart will be elected.

VENETIAN CANDIDATES set for coronation ceremonies tonight at Venice high school are, left to right, seated—Linda Svezia, Gloria Gardner and Barbara Hackney for Miss Venetian, and standing, Dave Scaturro, Fessor Gray and Bill Young for Mr. Venetian, as they confer with Miss Margarette Bothe, faculty sponsor.

Anxiety or Flu? Question As SIU Exams Approach

"Is it mild flu or just anxiety?" is a current question on the SIU-Carbondale campus as the SIU Health Service treats 30 to 60 students a day for flu symptoms.

Dr. Walter Clarke, Health Service director, said it is difficult to determine in some cases whether students have mild cases of flu or are suffering from anxiety. He pointed out that it is natural, in preparing for final examination prior to the Christmas vacation, for students to stay up late at night, and many anxiety symptoms are similar to those of flu:

stomach ailments, headache and low fever.

However, Dr. Clarke said, flu cases apparently are reaching a peak in a non-epidemic year. Last year, he said, the Hong Kong flu virus was identified as the strain infecting many SIU people. But this year, although there are several persons very sick with the flu, the cases generally are much milder.

Clarke said milder types of the illness cause the death of young people. Pneumonia and secondary infections are usually the cause and young people to stay up late at night are most able to resist developing these complications.

SIU Ranked 17th Largest in U.S.

Southern Illinois University is now the 17th largest in the nation, according to a standard national survey.

The ranking is given in the 50th annual "School and Society" magazine survey done by Garland Parker of the University of Cincinnati.

SIU is listed 17th in fulltime resident students (27,871) and 20th in total enrollment (36,446), which includes part time and extension students.

It is the second straight year that SIU has been ranked in the survey's "Big 30" listing of schools, in both full and part time student categories. SIU moved ahead of Purdue University and the University of Washington to jump from 20th to 17th this year (The University of Puerto Rico, also ahead of SIU in 1968, is not listed in the latest survey).

In total enrollment figures, SIU advanced from 23rd to 20th, overtaking New York University and Temple University.

The SIU figures represent enrollment at both the Carbondale and Southern Illinois campuses.

Leading the fulltime enrollment ranking, as usual, are the statewide unitary systems of New York and California, which lump all their campuses together.

The Big Ten schools of Wisconsin, Minnesota, Illinois, Ohio State, Indiana, and Michigan State are ranked 6th through 11th, in that order, followed by Missouri, Pennsylvania State, Maryland, North Carolina,

Steven D. Watkins Training with Marines

Pvt. Steven David Watkins, son of Mr. and Mrs. David Watkins of 2444 Terminal avenue, left Monday morning, for eight weeks basic training with a Marine Avian unit, at San Diego, Calif. He will then undergo five weeks of extended training and be given a leave to come home, prior to his next assignment.

He attended schools in Cape Girardeau, Mo. and in Granite City. His enlistment is for four years of active duty and two years inactive service.

Michigan, SIU, Tennessee, Purdue and the University of Washington, rounding out the top 20.

Following them in the "Big 30" are Louisiana State, Brigham Young, Wayne State, Kent State, Massachusetts, Cincinnati, Colorado, Rutgers, Florida and Iowa State.

Navy Commendation Awarded Former Resident

Billy W. Wright, Chief Quartermaster in the U. S. Navy and a former Granite Cityan, was presented the Navy Commendation Medal with the Combat "V" recently for his service in Vietnam.

The ceremony was held on board Chief Wright's present ship, USS Pococino (LC-16), and was presided over by Capt. William J. Vaught, the commanding officer of Pococino.

The citation was given for "meritorious service while serving on board USS Hunderdon (LST-538), engaged in armed conflict against the North Vietnamese and Viet Cong communist aggressors in the Republic of Vietnam from July 1968 through July 1969."

The citation also states: "His performance as assistant navigator during transit of the poorly charted rivers of the Mekong Delta was outstanding. On Sept. 12, 1968, as his ship came under heavy enemy fire, he calmly and professionally provided navigational information enabling the ship to clear the attack site expeditiously."

"Chief Petty Officer Wright's professionalism, leadership, courage and devotion to duty reflected great credit upon himself and were in the highest traditions of the United States Navy service."

Vice Admiral E. R. Zumwalt Jr., Commander U. S. Navy Forces, Vietnam, signed the citation.

Chief Wright is presently serving as assistant navigator and leading chief petty officer for the Navigation Department on board USS Pococino, Flagship for the commander of Amphibious Forces, U.S. Atlantic Fleet. The Pococino is headquartered in Norfolk, Va., where Wright and his family reside.

The local serviceman attended Granite City high school and enlisted in the Navy while there. He is married to the for-

BILLY W. WRIGHT, USN Chief Petty Officer

mer Phyllis J. Baldwin of Granite City.

He served aboard the Cruiser, USS Rochester, during the Korean war and has also served aboard the Cruisers USS Salem, USS Newport News and USS Des Moines.

In addition to the Navy Commendation Medal with the Combat "V", Wright wears the Korean Presidential Unit Medal, China Service Medal, Navy Unit Citation, National Defense medal and four Good Conduct medals.

Mayor Says RR Stall Complainant Receives Fine

Mayor Partney, who was praised by a city council member Monday night for his recommendation for a state law to shorten freight trains, commented that he was advised that a person who files a complaint against a railroad for blocking a crossing, a long period of time is entitled to receive the fine paid by the railroad.

The mayor presented his recommendation during a meeting last week of state's Railroad Grade Crossing, Blocking and Railroad Grade commission during hearings conducted in East St. Louis.

Alderman Charles Moerlein, a railroad employee, told council members, "I wasn't able to attend the hearings, but I've had three railroad union members who were present tell me that Mayor Partney, by far, came up with the best recommendation to end lengthy traffic delays on rail crossings."

"They said it was the most constructive remark to come out of the hearings," Moerlein said. Moerlein added that he was delayed for 42 minutes at a Route 203 crossing recently because of three trains—all with over 100 cars. "It appears that the railroads believe all other business should stop so the railroads can do a better business with longer trains."

Alderman Nann commented that he had been delayed nearly 50 minutes at the local crossing and filed a complaint against Penn Central Railroad.

It was then that Mayor Partney passed on the information that "whoever signs the complaint receives the fine money." Nann said that if he collected, he would send the money to a charitable organization. He added that during the delay, he walked to the caboose to talk to the train crew and was advised the train had halted so engineers could be changed in Venice.

Nann added that he had heard of a police car being parked across tracks at a railroad crossing in another city to keep the crossing open to vehicular traffic.

GC Jaycees Seek Candidates For Annual DSA-OYE Honors

Nomination of candidates for the Granite City Jaycees 1970 Distinguished Service Award and Outstanding Young Educator Award are currently being accepted by the local young men's service group. It was announced today by Carl J. Bernasco, DSA-OYE project chairman.

The awards, conferred annually on exceptional young men in the community, will be presented to the winning candidates at the Jaycees' DSA-OYE and "Bosses' Night" banquet, on Friday, Jan. 16, at Granite City high school cafeteria.

For the first time in the program's nine-year history, the awards banquet will be open to the public, Bernasco said today. Ticket information will be announced shortly, together with details concerning an outstanding guest speaker to be featured on the program, the chairman said.

Names of young men to be considered for the Distinguished Service Award may be submitted by individuals, organizations or institutions. Bernasco stressed that nominees need not be a member of the Jaycees or the organization contributing the nomination. Only the candidate's name should be submitted, the project official stated, noting that nominees will be contacted and asked to prepare and submit their own judging forms.

To be eligible for the DSA Award, a young man must be between the ages of 21 and 35; must either reside or work in the Quad-Cities; and be a U. S. citizen.

Eligibility requirements for Outstanding Young Educator Award candidates are the same, with the exception that young women teachers may be nominated. Last year, Mrs. Carol Lynn Singleton, a Parkway elementary school teacher, was the first woman to receive the OYE Award for her role in helping to formulate the ungraded achievement system currently used in many Granite City public schools.

The DSA is the highest award the local Jaycees present. The winner is then entered in the U. S. Jaycees' Ten Outstanding Young Men contest in which achievements may be further recognized and honored.

The qualifications of candidates will be judged by the DSA.

Record Number Of Veterans in GI Bill Training

The Veterans Administration announced today that a record number of veterans and servicemen in training programs under the newest G.I. Bill.

An even larger enrollment is expected next month when many schools begin their second semesters.

Administrator of Veterans Affairs Donald E. Johnson said that as of Nov. 30 there were more than 736,000 participants in training programs of all types. This includes trainees in programs at the college level, below college level, and on-the-job training.

According to Johnson, November's enrollment figure represents an increase of 36% over the same period last year when enrollees totaled 542,000. So far, 1,551,000 trainees have taken advantage of educational benefits provided under the latest G.I. Bill since it went into effect June 1, 1966.

A breakdown of trainees by categories includes 65,000 pursuing on-the-job training, 229,000 in programs below college level, and 432,000 in programs at the college level.

The VA chief added that the increased participation in training programs can be attributed in part to the agency's continuing "Total Outreach" program.

Under this program, veterans and servicemen are informed about benefits available to them, and are encouraged to apply.

VA contact representatives provide this service at military installations in Vietnam and the United States, as well as at VA hospitals, VA offices and Veterans Assistance Centers throughout the U. S. In addition to these personal contacts, VA letters are sent to all recently discharged veterans.

The Mal landfill was inspected on 60 occasions during the year, including 17 inspections that were operated by Leo Able and William Miller before March 1.

The department received 154 complaints of illegal dumping. Nine were prosecuted, and 12 showed insufficient evidence to prosecute and 133 were settled out of court.

Immunize Against Flu, Heart Group Advises

Winter is a great time of the year, if you're taking a vacation in some far off sunny climate. Unfortunately for most persons winter only conjures up visions of dreary days, icy winds, snow drifts to be shoveled, and, of course, influenza.

Since persons with heart or circulatory problems are more likely to be seriously affected than others if they develop the flu, the American Heart Association recommends that those persons check with their physician as early as feasible about the advisability of vaccination.

The Public Health Service has noted that until good protection is provided consistently by influenza vaccine, it is not recommended for healthy adults and children — only for those persons of any age with chronic debilitation conditions. These include:

- Rheumatic heart disease, (a narrowing of the valve opening).
- Coronary heart disease and

high blood pressure, particularly with evidence of inability of the heart to perform its function properly.

Asthma, chronic bronchitis, cystic fibrosis, bronchiectasis, pulmonary fibrosis, pulmonary emphysema and advanced pulmonary tuberculosis.

Diabetes mellitus or Addison disease.

Older persons, who may have incipient or potential chronic cardiovascular and bronchopulmonary disorders, also should be considered candidate for vaccination.

Flu vaccine is administered in two doses, about two months apart, the American Heart Association notes. However, the interval can be reduced if an epidemic threatens. Those vaccinated within the past two years need only one booster dose.

The group had sponsored a weekend dance at the church, featuring the "Agency" band, Joey Berkbigler, Dan James, Andy Berkbigler and Roger Underwood, plus request numbers by Louie Dragachin, a former band member.

Fellowship members planning the activities included Joey Berkbigler, invitations; Mary Beth Gordon, decorations; and Jim Townsley, refreshments. The room was decorated with posters on the walls, and there were candles in bottles on the tables. The refreshment table was decorated with red paper and evergreens and held a snowman centerpiece.

GC Council Preparing Model Traffic Code for Jan. 1st

Granite City aldermen are to receive copies of a model traffic code prior to next Monday's session with the hope that the new code will be adopted in time for enforcement by Jan. 1.

The purpose of the new code is to update the city's traffic laws, and to put them into one volume and to qualify the city for violation of traffic laws going to the county and state.

Federal funds were made available for the preparation, and City Atty. Scroggins advised the council Monday night he now has the final draft ready for distribution.

Police Chief Velzer said the city has received about \$5000 federal funds, and arrangements are being completed for the National Association of Police Chiefs to conduct a manpower survey here under the National Crime and Safe Streets Act.

In a variety of business Monday night, council members gave permission for Chief Velzer to attend the Illinois Association of Police Chiefs meeting at Pleasant Run Lodge, St. Charles, Ill., Jan. 19-20 when he is to be installed as the group's sergeant-at-arms.

He was given a \$150 expense allowance.

Need More Firemen

Referred to the Fire committee was a recommendation by Alderman Boker, who expressed concern over the widespread danger in West Granite during last Sunday's Tri-City port warehouse fire of the city's "great need for more firemen and firefighting equipment this year."

The Fire committee also is to study means for annexation of the Port District, located at Granite City Harbor to provide city fire protection. Mayor Partney pointed out the property owned by the federal government, which has posed a legal problem in the past. He also noted there are no water lines in the area at present.

Approval was given a reciprocal agreement for one year for cooperative firefighting with the Granite City Army Depot. Under the agreement, the city would have the right to use the depot in turn would aid the city department.

Appointment was authorized

for a citizens' committee to work with the city building inspector and the inspection department in an effort to speed up clearance of fire damaged buildings. Approval of the committee was requested by Alderman Paulie.

Comptroller Stevens was instructed to call for bids to repair the electric lines to the city's pumping station at the Army Depot. The repairs are to be financed by a Civil Defense disaster fund allocation to the city.

Approved by the council was a request from Civil Defense Director Victor Koenig for repairs to the furnace at the City Defense building on 10th street at a cost of \$175 and the aldermen accepted a bid of \$190 from the Granite City Electric Co. to replace the furnace at the drainage ditch and water line at Nameoki and Edwardsville roads, struck by an auto.

Complaints of Rats

At the request of Alderman Rutledge, complaints of numerous rats in a section of East Granite are to be investigated by the inspection department.

Rutledge, chairman of the Special Sewer committee, said a study is being made to find the cause of the rats, which are the storm water ditches fences.

"We can't use too strong a chemical, because it will be flowing into Horseshoe Lake," he pointed out.

The chairman also was advised that the Granite City Housing Authority is wanting property at Kirkpatrick Homes restored to proper condition where the storm sewers were installed. Rutledge said he has been unable to reach the project engineer, but will confer with the contractor.

Confirmed by the council was Mayor Partney's appointment of Mrs. Glennis Kay LeMaster, 2030 Illinois avenue, as the bookkeeping machine operator for the comptroller's office at a salary of \$350. She succeeds Mrs. Helen Rehms, who resigned.

City Atty. Scroggins advised the council that Bi-State Transit System is referring requests for bus service to the SLS-SW campus to university officials. The routing of buses from several cities to the campus was started
